Like traveling fast?

Tired of airports?

So do we

Problem

Airport Issues

- > 1 hour waiting time
- Frequent delays
- Understaffing
- Lost baggage

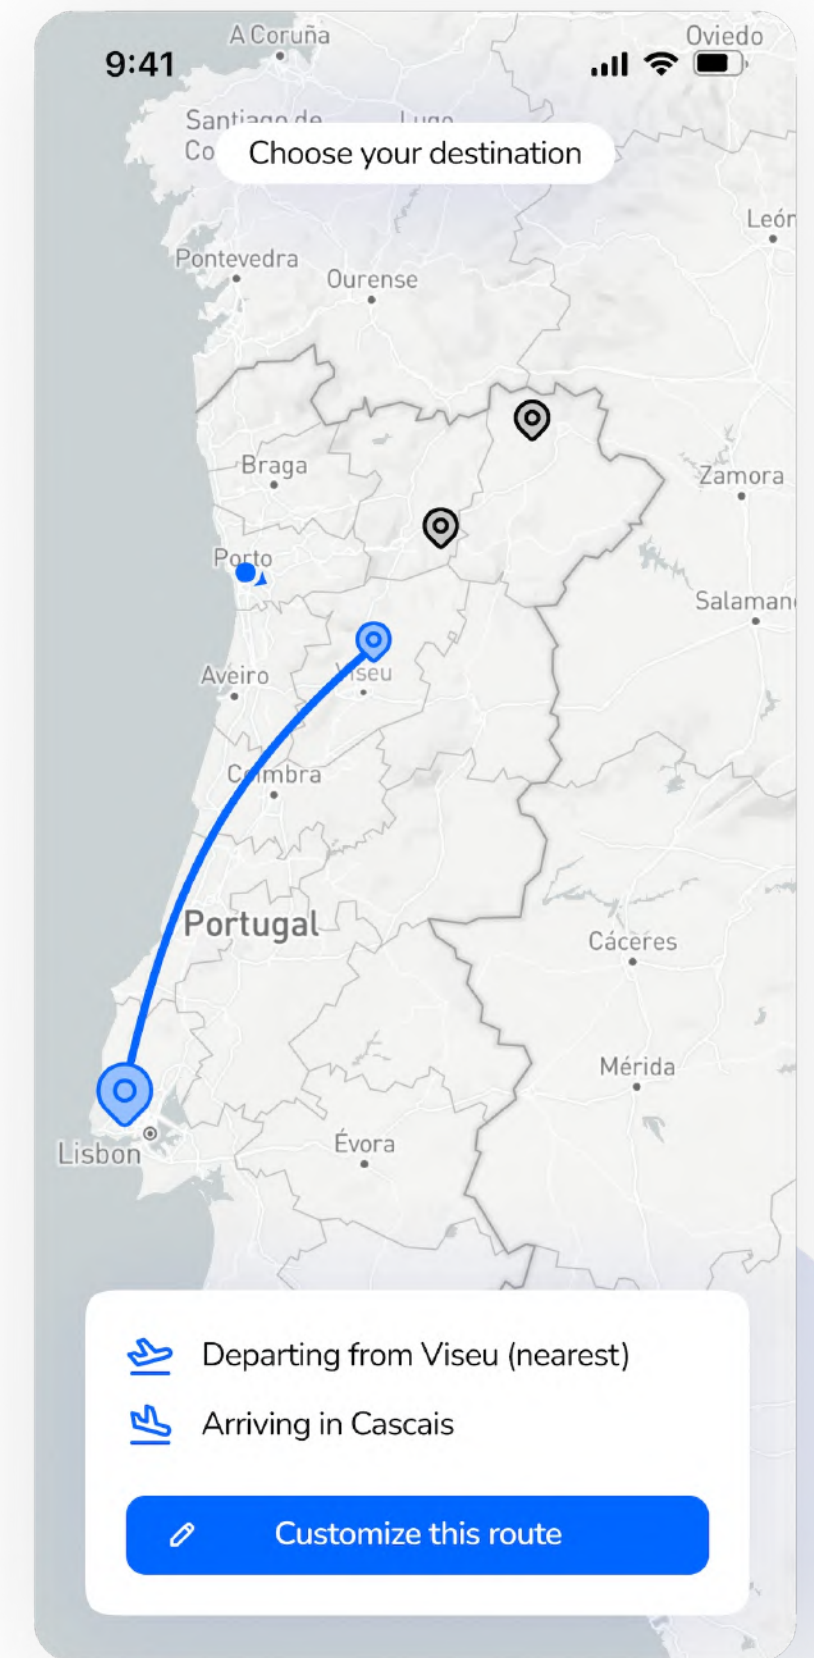

Traveling by Car

- Average of 1.5 passengers per vehicle
- Traffic

FASTTRIP

Hassle-free Domestic Flights

GEEKATHON 22

FASTTRIP

Key goals

Popularize the use of low capacity aircraft (10 to 20 people) for fast traveling small to medium distances

Audience

People looking for:

- Fast traveling without hassle
- Sightseeing

Plan

Partner with existing agencies

Accept independent commercial plane owners

To: Cascais - 11:00

Flexible

From: Viseu
To: Cascais

Availability
16:00 - 19:00

Partners

Sevenair

The current most developed company offering regional domestic flights in Portugal. Sevenair would be our main partnership in an early stage.

Uber

Uber

One of the biggest mobility as a service companies. Uber would benefit of a partnership in a niche market.

Revenue

FASTTRIP

01

Commission of 15% on each reservation

Adding a percentage of the price per passenger established by the pilot/company

02

Example

A typical flight between Viseu and Cascais (300km) would cost between 40€ and 65€ (depending on date and tier). With the additional 15% commission on top of the base price.

03

Revenue Expectations

Starting with 5 initial routes, with every day departures and returns and an average 8 people per flight, we expect to have an ROI (assuming an average 50€ per ticket) of around 7000€ per month.

Plans for the future

Tier Plans for each flight

Adding tiered version tickets, we will be able to offer perks around seats and other benefits (like beverages).

Partnerships around pilot licensing referrals and plane sales

If the demand grows the so has the supply too.

And so, to promote more pilots to join our platform, we plan on having partnerships to ease this process for people looking to work with us.

Social Rating

Adding a social side to the platform would allow users and pilots to see each other's details as well as statistics and other info.
